

# Nautico $\approx$ Verde

## Liquid Soil Conditioner

**Nautico Verde** is made from *Ascophyllum nodosum* harvested off the coast of Norway, the richest source of seaweed in the world. "Cold Process Extraction" method used to create this unique product preserves the integrity of biostimulants, amino acids, organic acids, and sugars. This process results in more biological activity and better uptake of the ingredients.

**Nautico Verde contains effective natural levels of auxins, cytokinins and other biostimulants. These ingredients are instrumental for providing:**

- New root initiation
- Optimal lateral root production resulting in increased root mass
- Environmental stress relief due to accelerated antioxidant production
- Improved photosynthesis
- Excellent color response and residual color
- Reduced seed germination time
- Excellent response on new seed, new sod and newly sprigged turf

**FOR USE IN MANY TURF APPLICATIONS INCLUDING GOLF COURSES, SPORTS TURF AND SOD**

**GENERAL MAINTENANCE APPLICATIONS:** Apply 1.5 to 3.0 fluid ounces per 1000 sq. ft. every 7 to 21 days.

**NEW SEED, SOD OR RECOVERY:** Apply 3.0 to 6.0 fluid ounces per 1000 sq. ft.

***Nautico Verde** should be used on new seed, sod, sprigs, recovery and on mature turf for prevention of summer stress or other environmental stresses. The nutrient additions and plant hormone ingredients increase turf photosynthetic activity and contribute to enhancing plant health, particularly increasing rooting activity.*

The natural combination of hormones, vitamins, sugars, amino acids and nutrients in **Nautico Verde**, is a powerful promoter of plant health. **Nautico Verde** is derived from one of nature's most durable plants, *Ascophyllum nodosum*. This sea dwelling plant is able to survive in the very stressful environment of the Arctic Seas, primarily, due to its genetic ability to produce vital plant hormones. Cold Processing Technology results in extremely efficient extraction of hormones from the seaweed, effectively preserving the *Ascophyllum nodosum* ingredients in their purest state. **Nautico Verde** applied to turf will harmonize metabolic activity, enhance natural growth, and help protect against environmental stresses.

Due to the unique combination of very beneficial ingredients, **Nautico Verde** will enhance rooting and enable the plant to fight stress. **Nautico Verde** provides the perfect biostimulant supplement for turf that is unable to sustain proper growth and hormonal balance due to root die back or juvenile a root system.

**Nautico Verde** also supplies betaines and other complex amino acids, which are natural cell protectants. They regulate cell processes to reduce damage from heat, drought and salt pressures. **Nautico Verde** triggers greater plant production of antioxidants which are known to eliminate harmful free radicals inside the plant.

**Weight per Gallon: 9.5 lbs.**

**pH: 4.5**

**Nautico Verde** contains 100% natural seaweed extract.
